starts on the content of March 3, 1855, requiring the poetage on all letters not free sent by mail within the United States, and not from or to a foreign country to be pre-paid, it was also enacted that from and after January 1, 1856, "The Postmaster General may require postmasters to place postage stamps upon all pre-paid, selters upon which such stamps may not have been placed by the writers."

We learn that the Postmaster General has decided to require postmasters to comply seth, and exity into effect, this provision of the late; and, if not already done, to supply themselves with postage stamps accordingly by sending their order for them to the Third Assistant Postmaster General. The Senate is "Republican."

The Senate is "Republican."

The Assembly is divided between the three parties, the Democrate having the most members, the "Republicans" next, and the Know-Nothings least, but intended or expected that this regulation shall throw upon postmasters the labor of affixing postage stamps to letters where the writers might, without inconvenience, have done it for themselves. The main thing is for postmasters to keep themselves supplied with stamps, that all persons having occasion to use may readily obtain them.—Washington Union, 21st.

The Commissioners of the lection in the State Government are now definitely ascertained, and may be summed up as follows:

The Secretary of State, Comptroller, Treasurer, Artorney General, and State Engineer, are Know-Nothings.

The Senate is "Republican."

It will thus be seen that the average American plurality over the Republican vote is considerably less than ten thousand, while the united vote of the Hards and Softs exceeds that of the Americans on first Appeal Judge by 7,745, and on the average by considerably less. We believe no intelligent politician doubts that, with an organization as that of the K. N.'s the Republicans must have beaten them by at least twenty thousand.

The organs of the Know-Nothings are resolved not to lose anything for lack of impadence. They exercise themselves with such phrases as, the foreign party, organs of the foreign party, etc. In the South, where there is an insignificant foreign vote, they have been almost uniformly since. One of those "anti-Americans" that the spurned by the electors; but two States ont of editor of the Journal proscribes and classes with fifteen States have given them majorities, and "furrin panpers and felons." those majorities trifling, and yet they have the presumption to call other people the foreign party, boasting, the meanwhile, that many "high-sonled" foreigners sympathize and voto with them.

But it is all false; the country is well enough, and don't want their quack nostrams. Charlatans and quacks alw ys overdo the matter, and the Know-Nothings are imitating them with great fidelity. They have all the Americanism, all the purity, wisdom, and patriotism. As a matter of policy, this is ill advised habits. The country can't stand so much wisdom, honesty, and patriotism. The Know-Nothings have too much of these new things. It is better to be satisfied with moderation, and not be to the pleasant variety of reading to be found on righteons overmuch.

There is a great deal of depending on a combion. The organ at Washington is anxious out a union at the opening of Congress; thereon hangs the public printing. Divers offices, great and small, await the success of a coalition. A Know-Nothing Speaker and Republican Clerk will have numerons crumbs to distribute. Questions between North and South, and political objects generally, must give way to weightier matters. The Democracy must be beaten or America cannot be ruled.

[From the N. O. True Delta.]

We Have No Laws. Literally and truly we have no laws. Equally erally and truly may it be said that here in New Orleans we have no public opinion. On Monday last, at least four or five heads of families were coolly murdered, some of them in the open day, coolly murdered, some of them in the open day, leaving over a score of orphans and their desolate mothers to the benevolence and sympathies of the public. Over fifty, we are certain, have been badly hurt, all by the hired myrmidons of the Know-Nothing party; but if you read in its accredited organs, the Bee, Bulletin, Picayune, Delta, and Crescent, you would actually suppose things wont off vory harmoniously, and that the imported assassins were really the only reliable force of the Mayor, Sheriff, and Common Council, to keep the peace and maintain order.

There was, however, an exception among public officers; there was at least one honorable and ever-

officers; there was at least one honorable and ever-to-be-remembered exception to the general worth-lessness and infidelity of public servants there was one judicial officer, who, if a stupid and wicked Common Council purposely dobanched the police Common Council purposely dobanched the police to give the reins to ruffianism, if the Mayor could only issue proclamations, if the Sheriff could only shrug his shoulders in the presence of the greatest ontrages, there was still one judicial officer, we say, worthy of the ermine, and deserving of the best thanks and gratitude of the people.

That officer was Judge Robertson, of the Criminal Court, who, we are informed, upon satisfactory

nal Court, who, we are informed, upon satisfactory estimony, issued his warrant for the arrest of the entire band of vagabonds so obligingly furnished from their main body in Mobile, to assist in our tions here, and placed the same in the hands of the Sheriff for execution. He did more; he stated to that functionary when he did so, that if limits of New Orleans the ruffians who were im-ported to outrage its citizens and trample upon its If American born Democrats had to fly from the pells where they deposited their votes; if upright inspectors of election were constrained, by the knife of the assassin at their threats, to by the knile of the assassin at their throats, to violate decency, propriety, and their oaths, the blame and the odium are far removed from the shoulders of Judge Robertson, and in future years it will be a proud consolation to him to know

l'ersons at a distance can have no idea of the "Reign of Terror" through which this city passed on Monday last, of the murders committed, the adly wounds inflicted, and the innumerable outrages, of which almost every polling place was the scene. The Know-Nothings had everything their own way. A partisan Common Council, composed chiefly of men who have nothing to lose, had already conformed to the behests of the wigwams in the appointment to the benests of the wigwams in the appointment of the majority of the Inspectors of Election, and in the preparations at the polls, and throughout the entire day, with the excep-tion of some five or six precincts, every impedi-ment was thrown in the way of citizens wishing to vote the Democratic ticket, at the extent of murder, when lesser violance failed at account murder, when lesser violence failed, at several

Notwithstanding all this, the Know-Nothing prints speak as tenderly of the election as if New Orleans was a city of law and order—a city possessing a regular government, with its Mayor, Sheriff, and other magnificently endowed officials, who are all so fine to look upon, when they themselves are

The Picayune, indeed, with its saintly complaisance, and slook and demnre manner, intimates that even in the breaking of the ballot-box in the Sev-enth and Ninth Precincts there "was not literally

But let us give our readers its own words, and

as it has had experience in ballot-box breaking, we are willing to let thom go for what they are "There is no clue discovered, that we are aware

of, to the perpetrators of the deplorable acts of lawlessness on election night, by which two of the ballot-boxes were destroyed. It was not literally mob violence, as we understand it, for there does not appear to have been, in either case, any considerable number engaged, or any noisy demonstrations. Both acts were executed by surprise and intimidation, and so suddenly that there was

Of course there was no mob; for does not honest Of course there was no mob; for does not honest lago assure the world so? that is, as it judicously qualifics it, "literally," a la Picayune.

Cortainly there was no mob, only a set of ruffians who fired a number of shots through the hat of the police officer, wounding him dangeronsly in the head, besides inflicting on him a severe knife wound, all of which our candid neighbor has forgotten to include in the affair of the Ninth Precinct, although it very judical set in Ninth Precinct, although it very indignantly stig-matizes the breaking of the ballot-box "a deadly

crime against the public."

Our readers out of New Orleans may take our Our readers out of New Orleans may take our assurance for it, that, unless for those claiming to belong to the Know-Mothing faction, there was scarcely, after mid-day, a shadow of a chance for others being permitted to exercise their electoral rights without insult or personal injury, at many of the precincts, and at one precinct, in St. Fordinand street, the mandoring and breaking of the protest box commenced before that honr, one of our personal friends, an old man and native born having to fly for his life. Nowhere did the authorities appear to take the least interest in what was going on, and murders were committed and innumerable

JUDGE STUART.—"Think ye, that those upon whom the tower of Siloam fell were sinners above all men, I tell ye may, for unless ye also repent ye shall likewise periah." The excuse for acquitting Judge Stuart seems to be that he is no worse than the rest of mankind; but is this a good one? It may be sometimes unfair to convict a man upon the evidence of snch a woman as testified against Judge Stuart, but is it not generally right to condemn a man upon the oaths of his own chosen associates? The action of the jury in recommending Judge Stuart to resign is strange, indeed, for if innecent, false charges only onght to make a man's character brighter and brighter. We can fully coincide with the following from the Tribune:— JUDGE STUART.—"Think ye, that those upon short supply of coffee from that quarter:

ENGLAND.—We find nothing new in the Times respecting the threatened difficulty between Great Britain and the United States. The circular of Creaker & Co. croskey & Co., of Southampton, howover, contains the following paragraph:
"The question of war between the United States

An uncertain apprehension is felt on all sides; nobody knows what is going on, or where the first blow will fall, and even the absurd doa of an American invasion of Ireland is gravely liscussed at Lloyd's and on Change."

From the searcity in market for shipment, it has taken an advance on last quoted prices, with a prospect of a further rise; and what is now coming in (called now erop) is reported as light, and in quality not so good as usual.—Correspondence N. Y. Herald. In no part of the Union has the new phase

of Americanism been so supremely triumphant, as in Massachusetts. The following paragraph from the New Haven Register, furnishes an other illustration of the exploits of the order in "purifying', the government. It is a fundamental maxim in the creed that "Sam" must be provided for: Boston Hindoo Fashions.

The Boston papers are publishing some queer deobtained and sustained by the remnants of said structure and the broken fragments found on the spot on the day of the examination; and, giving the testimony taken, the consideration which, in my opinion, it deserves, but relying mainly upon my own observation and judgment, I proceed at once to state the conclusions I have arrived at, one item in the "bill of particulars," which is the dinners, suppers, excursions, &c., furnished members of the city government, amount to \$10,065,72, and \$1,520,59 more, for carriage hire! There is one item in the "bill of particulars," which is the most laughably impudent of anything we have ever seen in any auditing of public accounts: "Probable amount due George Young, \$1,500." "George Young," is the keeper of a fashionable "restanrant," in that city; and it seems to be considered a legitimate "Boston notion," for the members of the city Councils to eat and drink, singly, or in pairs, at "George's" honse, and have the costscharged over to the city of Boston! and they gravely estimate that on the first of November, the "probable amount dne" that fashionable "lord of the larder," to be, say, at a rough gness, \$1,500! Was the like amount one that is shonable "lord of the larder, to be, say, at a rough gness, \$1,500! Was the like over heard of before! Boston Hindooism is certainly a sample card! Everybody wondered at the impudence of Hiss; but a greater than Hiss, is here! He was but "following in the foot-steps of illustrious prodessors," in shifting or to the "publications prodessors, it is shifting or to the "publications prodessors," in shifting or to the "publications prodessors," in shifting or to the "publications produces of the publications of llustrious predecessors," in shifting on to the "pubchest" his personal liabilities. AVER'S PILLS, NEW AND SINGULARLY SUCcessfulremedy for the cure of all Bilious diseases
—Costiveness, Indigestion, Jaundice, Dropsy, Rhenmatism, Fevers, Gout, Himmers, Merrousness, Irritability,
Indiammations, Heanache, Pains in the Breast, Side,
Back, and Limbs, Fermale Complaints, &c., &c. In
deed, very few are the diseases in which a purgative
medicine is not more or leas required, and much sick
mess and suffering might be prevented if a harmless but
effectual Cathartic were more freely used. No person
can feel well while a costive habit of body prevails; besides, it soou generates serions and often fatal diseases,
which might have been avoided by the timely and judiclous use of a good purgative. This is alike true of
codds, feverish symptoms, and bilious derangements.
They all tend to become or produce the deep seated and
formidable distempers which load the hearses all over
the land. Hence, a reliable family physic is of the first
importance to the public health, and this Pill has been
perfected with consummate skill to meet that demand, an extensive trial of its virtues by physiclans, professors, and patients, has shown results surpassing anything hitherto known of any medicine. Chres have
been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of intruth.

Among the many enihent gentlemen who have testtified in favor of these Pilks we may mention:

Dr. A. A. HAY ES, Analytical Chemist, of Boston, and
State Assayer of Massachusetts, whose high professional character is indorsed by the

Did space permit, we could give many hundred cerlificates from all parts where the Puls have been used
out evidence even more convincing than the experience
of eminent public men is found in their effects upon canhent public men is found in their effects upon al.

These Pills, the result of long in vestigation and sindy, e offered to the public as the best and most complete eight the present state of medical science can afford bey are compounded not of the drugs themselves, but the medicinal virtues only of vegetable remedies, exceted by chemical process in a state of purity, and abbred together in such a manner as to insure the stresslits. This system of composition for medicines is been found, in the Cherry Peeteral and Pills both, produce a more efficient remedy than had hitherto an obtained by any process. The reason is perfectly vivous. While by the old mode of composition every edicine is burdened with more or less of acrimonious dinjurious qualities, by this each individual virtue by that is desired for the curative effect is present the inert and obnovious qualities of each substance, appoyed are left behind, the curative virtues only begretained. Hence, it is reflevible in the effects should ove, as they have proved, more purely remedial, and a Pills a surer, more powerful antidote to disease than by other medicine known to the world.

In its operation upon the poison in the system, it will immediately relieve all the distressing symptoms of bilious or agne diseases, and when the disease is enred, it will entirely prevent the accession of GENERAL DEBILITY AND NIGHT SWEATS, Which so often follow the administration of other medicines. The patient at once begins to recover appetite and strength, and continues to improve until restored to perfect health. By its use, Fever and Ague may be banished from every family and class in the community; farmers, mechanics, and all laboring people may be using this article as a PREVENTIVE.

son, which is often to them the most valuable part of the year.

Since the Introduction of the CURE in every part of the United States, its success has been so complete and unvarying as to have fully proved these assertions in favor of its extraordinary merit.

When these declarations were made, at the date of its introduction, they seemed incredible to many, even of the most candid minds, because all the resources of the most candid minds, because all the resources of the most candid minds. the most candid minds, because all the resources of science had been taxed in vain to subdue agne or bilious diseases; and what was still worse for ague sufferers, all their remedies or treatment, whether scientific or empirical, have been limited to the use of poisonous or destructive drugs, such as Arsenic, Quinine, Mercury, Salicine, &c. The effects of these are sometimes worse than the disease they subdue; and when such remedies fail, or give only temporary relief, their poisonous effects are superadded to the poor sufferer's first compiaint.

BECAUSE OF ITS BINGULAR AND ENTIRE HARMLESSNESS, The following certificate, from one of the most cele-brated chemists in the United States, has been obtained, and a copy of it is attached to every bottle: "I have made a chemical examination of Rhodes, Fever and Agne Cure, or Antidote to Malaria, and have tested it for Arsenic, Mercury, Quinine, and stry chnine, but have not found a particle of either in it, nor have I found any substance in its composition that would prove injurions to the constitution.

INDIANAPOLIS, Inn., March I, 1955.

James A. Rhodes, Esq.—Dear Sir:—Yours of 15th nlt. has been received, and I am glad to hear that a medicine so efficacious is to be introduced into this Aurisa country. I have the greatest confidence in its success, and can reasenre you of its happy effect upon me in entirely breaking up the chills and leaving me strong and healthy.

I the the statement on your wrappers that you will let the medicine stand on its own merits, and standing thus, I am most sanguine of its success.

I expect to travel over a large portion of our State this spring, and I shall have abundant opportunity to recommend it verbally. Wherever I go I shall take great pleasure in that testifying to its merits, and if you will instruct your agent to let me have a few bottles, I in haste, I remain, truly yours,

HAD THE AGUE FOR TWELVE YEARS!!!

PROVIDENCE, June 28, 1855.

Having been informed of the illness of a poor, but worthy woman, who has not been free from Kever and Ague a month at a time for the last twelve years, I supplied her gratuitionsly with Rhodes' Kever and Agne Cure. She took in all four bottles, which completely restored her to health and strength, and as four months has now elapsed, there is no reason to doubt the permanency of the cure.

I am also aware of many other cases in which it has been used, and have never known it to fail.

Ou account of objections from a great number of pupils heretofore, religious difficulties are removed by forming two classes. pils heretofore, religious dimenties ar removed by forming two classes.

J. P. L. thinks it nnnecessary to mention all by Dances and Waltzes he will teach in his school. The great nnmber of pnpils he has taught in this city for the last ten years is the best recommendation he can offer. Nowithstanding all the Fancy Dances and Waltzes J. P. L. Is acquainted with, he takes pleasure in stating that on his visit to the Sonth he has met with his friend Fingally Dritsk, from the Operaof Paris, and when here the principal Dancer of Placide's Varieties. Through his kindness J. P. L. has come in possession of the most recent Dances, viz:

Gortilza—Five-Step Walts.
